

Exploited, Lie To Me

Vote for me is what they say
But what have you done for me
They'll tell you f**king anything
A vote is what they want from me

(Chorus)
They lie to you
They lie to me
They lie to you they lie to me
What can you f**king say

Shake my hand kiss my arse
What do you want from me
Different party's different views
It's all the f**king same to me

They lie to you they lie to me
They lie to you they lie to me
What can you f**king say

(Vocal break)
They lie to you they lie to me (x4)

A load of wank is what I hear
When you preach to me
Every f**king policy
It's all just shit to me

They lie to you they lie to me (x6)
What can you f**king say
