

Extreme, Fair Weather Faith

Prentending to act so serene
On your so called submissive knees
A shopping list of begging pleas
Adds to your complacencies
As soon as the sun dont shine your way
And youre saving it all up that rainy day
Its a matter of time before you get down n pray
Fair weather faith - protect me from the storm
Fair weather faith - gonna right all my wrongs
Fair weather faith - you know im doing alright
Fair weather faith - out of mind, out of sight
Well I wonder if the man upstairs
Will bother to lend an ear
If you took the time to share
Another one of your puppet prayers
I aint talkin bout the weather
