Extreme, Monica

Look at Monica walking in her sleep Look at Monica running through the fields In her dream, so serene Monica, Monica

Hush, don't you say a word Did you see the smile she made today?

Look at Monica Look at Monica

Morning's coming ever so fast Shadow's reality's cast More like a dream that just won't last

Look at Monica walking in her sleep Look at Monica running through the fields In her dream, so serene Monica, Monica

Please keep quiet, let her sleep Can't you see the smile she made today?
