

# Eyes Of Fire, Fly Away

You fly away to your heaven so far away with another soul in your arms  
Fly away my angel fly away and leave me here to stay  
Leave me be my angel leave me here to wither away  
All alone my angel with nothing but this black heart  
Fly away my angel fly away and leave me here to stay  
You fly away to a heaven so far away with another soul in your arms  
I wither away  
Fly away my angel and leave me here to stay  
Take these dreams my angel take them from me and cast them away  
Throw away my angel this life you gave to me  
Fly away my angel and leave me here to stay  
This felt so real  
Your love you gave to me  
Left behind once again  
Tonight I'll fade away  
Fly away...  
From me  
My angel  
My heart  
My love  
My everything.
