

F4, Can't Lose You (English Version)

CAN'T LOSE YOU

F4

(Jerry)

Without you, who am I?

Wherever my heart stops it doesn't seem right

(Vic)

On which day? Whereabouts can we carry on the unfinished love

At the cross roads, who is beside you?

(Ken)

Even if the world denies you

It won't make me give you up

(Vanness)

Even if our past has nothing to prove it

(Vanness & Ken)

I will stay by you

(All)

Oh Baby baby baby, my baby baby

I definitely can't lose you.

Your hand your voice still taking up my heart

How can I forget thinking about you is like breathing?

Oh Baby baby, my baby baby

I definitely can't lose you

Don't care where you are

I definitely will be able to find you

(Jerry)

One day there will be a day using meteor rain to prove our promises

(Vic)

You will find out forever isn't far

(Vanness)

Even if the whole world denies you

It can't make me give you up

(Vanness & Ken)

Even if our past has nothing to prove it

I will stay by you

(All) Oh Baby baby baby, My Baby baby

I definitely can't lose you

Your hand your voice still taking up my heart

How can I forget thinking about you is like breathing?

Oh baby baby, my baby baby

I definitely can't lose you

Don't care where you are

I will be able to find you
