

# F4, Ni Bu Ai Wo Ai Shui

Album: Meteor Rain  
Singer: Vanness Wu

this song goes out to all the females who's hearts been broken  
i'm only hear to do one thing and that's to bring it back  
so relax, lay down, close your eyes, spread your heart,  
check it up, here we go

from the first when our eyes ever made contact,  
stepped back, tried to relax  
could it be that, that i see that  
i'll be standing next to you whenever where ever you'll be at  
words maybe strong when it's first time you hear them  
baby know you're scared but never the less try to hear them  
no false pretenses nothing but the real thing  
love coming from the man of steel

everywhere dou shi ni de lian  
ni yi xiao wo bei bao wei  
zhe fen ai dao chu dou you bian xian  
yi kua jiu bei cui fan gui

everywhere wo dou bu hui bian  
yue xiang ni yue duo gan jue  
ni bu ai wo  
wo wen wen wen ni hai neng ai shui

look in my eyees, baby truth or not lies  
the questions of what and why  
let them die, cuz now's the time to fly  
so close your eyes and leave the lonely past behind  
and just let me hold you not scold you, cuz baby i told you  
that the only thing i want is to grow old with you  
look in your heart, cuz i know i've got the parts  
to feed what you need from the start

everywhere dou shi ni de lian  
ni yi ku wo xian tian hei  
zai wei xian wo ye bu pa wei xian  
ba xiao jia zai ni yan qian

everywhere wo dou bu hui bian  
zhe ke xin mei you shang xian  
ni bu ai wo  
wo wen wen wen ni hai neng ai shui

now brace yourself and prepare, for tender loving care  
no need now to stare, no non other can compare  
now for a close up, back that thing up  
and let this thing called love take it's course so we can live it up  
my futures with you, i can see it ever so clearly  
taking it slow, cuz you're the only one for me  
so here's my heart for you, now and forever more  
Cuz you're the only one that i adore

everywhere dou shi ni de lian  
ni yi ku wo xian tian hei  
zai wei xian wo ye bu pa wei xian  
ba ai qian dao ni sheng bian

everywhere wo dou bu hui bian  
zhe ke xin mei you shang xian  
ni bu ai wo  
wo wen wen wen ni hai neng ai shui
