

FabTheGap, Something new

The first time i lost my pants
I also lost my innocence
That's the way it should have been
Because it was like a dream
I shouldn've known better
Fools like me never get her
Ref; What else can I do
Cause you know
I'm still in love with you
What else can I do
Cause you know
I'm still in love with you
Tring something new
I probably gave me heart to fast
But now it's too late and at last
I'm sitting here and writing this song
About a love that's been
And now is gone.
I shouldn've known better
Fools like me never get her
Ref; What else can I do
Cause you know
I'm still in love with you
What else can I do
Cause you know
I'm still in love with you
Tring something new
I shouldn've known better
Fools like me never get her
What else can I do
Cause you know
I'm still in love with you
What else can I do
Cause you know
I'm still in love with you
What else can I do
Cause you know
I'm still in love with you
What else can I do
Cause you know
I'm still in love with you
What else can I do
Cause you know
I'm still in love with you
