

Face Down, Anti-Life

Get off my back get off my case
Shit missed the fan and hit me in the face
My car is torn and my clothes are broke down
And I'm so broke my rain checks bounce
Life is tough now can't you see
I got kicked out of my own fantasy
My dog pissed my bed and ruined my sheets
And none of my shoes seem to fit my feet
Anti-life

Hitting the stage now every night
They say break a leg so I break my right
I can't take this shit I have to shout
Tried to hang myself I ripped the ceiling out
Say that's crazy man my life's going far
Walked out to the world and got hit by a car
Nothing seems to go my way
I got different shit on the same f**king day
Anti-life

I am lost and alone
Will you come back to me
Come back and make me whole
It's been like this for all these years
Kill the hatred deny the fear
