

Face II Face, I Want You

I want you, I need you, I wanna be with you
I show you my lovin'. Want you to love me too
I will always try
To reach my big dreams share a lifetime with you
I will always find
Your emotions inside you I want you to be close to me
I want you. I want you, baby

Girl I want you and you want me and
That's the way it's supposed to be
You see you're the only one that's on my mind
I wrote this rhyme this 'cause I like that behind
You're so sweet and your style's complete
Reminds me real bad of something to eat
You be like bon appetite while I enjoy my meal
But it starts to chill when I speak what I feel
Baby, baby you drive me crazy
When it comes to your love. I'm never lazy
You touch my heart and now I'm fully emotion
Your love is so cool. It feels like lotion
Rub it on 'til the break of dawn

We can be together, your word is wrong
What better way can I say this. What can I do?
On the grill the deal is I want you

I think I've told you once. So let me say it twice
To have your love would be oh so nice
Whatever it costs you know I'll pay the price
'Cause I love you more than my beans and rice
So my darlin' let me express the real facts
Of how I feel because I can't relax
Here, let me take your hand, be your man
I can understand 'cause I'm more than a fan
Damn. I want to get close to you
I'm looking for somebody so that I can be true to
Willing and able with all my heart
'Cause I can never finish unless I start
Our relationship comes fully equipped
So let me take a sip on a hip hop tip
'Cause you're on my mind no matter what I do
The truth of the matter is girl I want you
