

Failure, Wake Up

what did they say
when they brought you down here
did nobody tell you
you can't get out

i'm sure there are folks
who say you can
but you're sure to find out
there's no way out

you've been spending all your change
no point saving for rainy days

i'm gonna be there
when you find the border
i'm gonna be there
when you can't wake up
just remember i've got my orders
no searching for the answers now

who did you fool
to get yourself here
we'll take any bribe
we'll show you the sights
i know that you felt so sure you'd break free
we'll say anything you'll let us believe

you've been calling all your friends
no good reason just checking in

i'm gonna be there
when you find the border
i'm gonna be there
when you can't wake up
just remember i've got my orders
no searching for the answers now

we'll show you your heaven
it's right here in silence
no searching for answers
it's pointless

what did they say
when they brought you down here
did nobody tell you
you can't get out

i'm sure there are folks
who say you can
but you're sure to find out
there's no way out

i'm gonna be there
when you find the border
i'm gonna be there
when you can't wake up
just remember i've got my orders
no searching for the answers now
