

# Fair Haven, The Conscious and the Brave

I saw trash eyed Jimmy  
Cuffed and down with heart so cold  
He said I gotta tell you  
This shit's getting pretty old  
So around the corner what caught my eye  
Was a highway paved with gold  
And all thos pretties, were all so happy  
Doing just what they were told  
Hey, You, what you gonna do  
You, can do, what ya gotta do  
To be the conscious and the brave

Concern yourself with dollars  
chicks and cars that look so fine  
Eays street's a mile away  
wake up while there is time  
if you're into letting go  
And you got to find the way  
if you're tired of standing in the corner  
There's no day like toady
