

Fair Sex, Cold Contempt

It floats a bewildered child
They boast of having abused a mere child
With their fishy machines
They did it. They did it with force
They did it with cold contempt
"Come a bit closer"
Now get raped, sucker, feel your own
Prick sodomizing your holes
Now you mention the term mercy ?!
Get out get out
Get out your slimy sting
Get it out
Of course no remorse
Rude hands take what they can don't they
You call that love ?
Why the heck do you all smile ?
Face this frantic reality
Ruled by oppression
Free the ones oppressed !
hey shrug and they sigh
"This world's not as strange as you like to describe it"
Indifferent smiles
Don't make me puke and scream
