

# Fair To Midland, Kyla Cries Cologne (Inter.Funda

let me introduce you to a pair that strikes crude oil  
but i see pyrite  
it is the same old pattern - the goose that feeds the gander  
they choose to act  
but not i  
let's go outside and it might restore us  
more for the fire that fights for the freeze  
now mechanical  
so the the pair proceeded  
another pulse defeated - can't say that i am surprised  
"it is the fly trap's color that caused the fall into her"  
what is the shade that you saw?  
(bridge)  
bound by the salt  
not your earth  
the hat mocks the rabbit while the bee stings the shark  
stop the start  
these are my disguises  
vinegar & water gave the end away  
bought my stocks and lost 'em while the suitcase said:  
"let's go outside and it might restore us"
