

Faith Evans, Get Over You

I can remember the day and time that we broke up
It was December and the holidays were coming up
I didnt expect to loose all of the time I shared with you
But now that its gone I find myself longing for you

[Pre-Chorus]

No doubt about it Im sorry for the way things worked out
If I could change it I would change it but I dont know how
Ooooooooooooooooooooo
(No I cant aint no need to cry when I know the reason why)
You chose to leave me but I still wish you were here with me

[Chorus]

Its true I cant get over you
No matter what I do
Even if I try I, I cant get over you

I can remember calling your phone and hanging up
Cause I was to afraid to talk, if by chance you picked it up
But now that I done thought about it,
Id feel better if we talk about it
And let you know whats on my mind
See I wanna try to make things right.

[Repeat Prelude]

[Repeat Chorus]

Lately Ive been doing some reminiscing
Id be lying if I said that I dont miss you
I have feelings from deep in the past
Cause now I need you back
It wasnt so bad

[Repeat Chorus 2x]

I cant get over you
I cant get over you
No I cant get over
Said no way I cant get over
I cant get over you
Alright yea yea
