

Faith Evans, Sunny Days

[Chorus]

You turn the rain into sunny days
You take the clouds away
Baby you're the one
I feel like heaven's a step away
He sent an angel my way
Baby you're the one

I remember when
I used to be afraid to love again
But now I realize
That you're the one who brings the sun
You turn

[Chorus]

Something real I can feel
I was searching for
I didn't wanna hurt no more
Then you came, made a change
Since you came and made it right
I can love you all my days

[Chorus]

Can you tell me where would I be?
What would I do if I hadn't found you?
Though I've been in love before
You can be compared to none
Cuz you really bring the sun

[Chorus]

I always try to hide the way that I feel
But I can't lie
That you're the one for me
You bring me ecstasy

[Chorus x2]

Sunshine in my life
No more stormy days
Sunshine in my life
No more stormy days
Sunshine in my life
No more stormy days
