

# Faith Evans, Sunny Days

[Chorus]

You turn the rain into sunny days  
You take the clouds away  
Baby you're the one  
I feel like heaven's a step away  
He sent an angel my way  
Baby you're the one

I remember when  
I used to be afraid to love again  
But now I realize  
That you're the one who brings the sun  
You turn

[Chorus]

Something real I can feel  
I was searching for  
I didn't wanna hurt no more  
Then you came, made a change  
Since you came and made it right  
I can love you all my days

[Chorus]

Can you tell me where would I be?  
What would I do if I hadn't found you?  
Though I've been in love before  
You can be compared to none  
Cuz you really bring the sun

[Chorus]

I always try to hide the way that I feel  
But I can't lie  
That you're the one for me  
You bring me ecstasy

[Chorus x2]

Sunshine in my life  
No more stormy days  
Sunshine in my life  
No more stormy days  
Sunshine in my life  
No more stormy days
