

# Faith Evans, You Don't Understand

[1]

Is it a game that we're playing  
It seems like the cloudy days  
Keep coming in my life, whoa  
Is it a game that we're playing  
You don't understand  
Your love is taking over me

I know you wonder why I sometimes cry  
When I should be happy (I should be happy)  
To have you in my life (Whoa)  
But you don't understand the changes I've been going through  
Just to be happy  
I need you by my side  
(Baby just spend some time)

[Repeat 1]

Sometimes we said we'd try to make it right  
But so many other things are getting in the way  
(In the way) All we got to do is lean on each other to make it happen  
There's nothing more left to say  
(Nothing that we can say)

[2]

And I'm going crazy  
(Ahh..)  
Trying to do it by myself  
But I really need your help  
(Badapadapada)  
Baby please (Oh baby please) listen to me  
I'm down on my knees (Yeah)  
Baby please (Yeah) don't walk away (Oh)

[Repeat 1]

[Repeat 2]

[3]

Baby I love you and I want you to know  
If you love me baby just let your feelings show

[Repeat 3 til end of song]
