

Faith Hill, Fireflies

Before you met me i was a fairy princess
I caught frogs and called them prince
And made myself a queen
Before you knew me i traveled 'round the world
I slept in castles and fell in love
Because i was taught to dream
I found mayonnaise bottles and poked holes on top
To capture tinkerbelle
They were just fireflies to the untrained eye
But i could always tell

[chorus]

I believe in fairytales and dreamers dreams like bed sheet sails
And i believe in peter pan and miracles
And anything i can to get by
And fireflies

Before i grew up i saw you on a cloud
I could bless myself in your name and pat you on your wings
Before i grew up i heard you whisper so loud
"life is hard, and so is love, child, believe in all these things"
I found mayonnaise bottles and poked holes on top
To capture tinkerbelle
And they were just fireflies to the untrained eye
But i could always tell

[chorus]

Before you met me i was a fairy princess
I caught frogs and called them prince
And made myself a queen
Before you knew me i traveled 'round the world
And i slept in castles and fell in love
Because i was taught to dream
