

# Faith Hill, Love Will Always Win

Hold me like there's no tomorrow  
There can be no sorrow  
Right here where we stand  
Living only for a moment  
All I ever wanted  
Is right here in my hands  
Some will say  
That we're sure to fall  
Try to build their walls  
Between us

No way over it  
No way around it  
If we want it we have to go through it  
Fight for love  
And the world tries to break us down  
But the world will bend  
And the fight will end  
Love will always win

Hold on 'til we see tomorrow  
There is time to borrow  
'Til we own our own  
Walk on and our hearts will lead us  
But our heart will need us  
To be steady and strong  
So we can stand  
And face the fire  
Burning higher  
Surrounding us

No way over it  
No way around it  
If we want it we have to go through it  
Fight for love  
And the world tries to break us down  
But the world will bend  
And the fight will end  
Love will always win

No way over it  
No way around it  
If we want it we have to go through it  
Fight for love  
And the world tries to break us down  
But the world will bend  
And the fight will end  
The world will bend  
And the fight will end  
Love will always win
