

# Faithless, Reverence (Tamsin's Remix)

Backing by Dido:

Slow, slow, there's got to be, slow (8x)

Maxi Jazz:

Take my words and my base,  
Taste, and then swallow me,  
You're chasing the devil,  
'cause you never lift you follow me,  
for quality. And I make no apology  
for linking my thinking with computer technology.  
'Cause this is like a modern day, hymn  
for the new church.  
I search for the truth.  
I've got a hole in my tooth.  
I'm on {?}.  
I'm from the street university,  
where we learn to earn even in times of adversity.  
And I will find a easy way out of a hard time,  
petit crime sometimes.  
But now I'm inclined to find  
a fresh direction (2x)
