

# Faktion, Control (Demo Version)

On a one way highway  
Only lights to lead the way  
My life left behind me  
The music begins to play  
With the stars to see me  
Liberation lifts the shell that's on me  
In a newborn image  
I'm the only one who sees

Chorus:  
Let the music take control  
Only driven by the light that it shows  
Don't take away my light  
It's the only thing keeping me alive

As I'm walking forward  
My shadow's got my back  
I'm free from all that binds me  
Still holding things intact  
Now the stars can free me  
As I drift into this melody  
In my newborn image  
I'm the only one who sees

Repeat Chorus

I found a new life  
Inside this world  
I found my light  
I'm not letting go  
Now I see all I've been searching for  
It's all in sight  
I found my life

Repeat Chorus

On a one way highway  
And I'm the only one who sees
