## Faktion, Forgive Me

Concentrating on my knees Cause theyre no help to me I find myself with simple questions And simple needs

Bleeding forces gather me Undo my weakness and appease My sadness and guilt Of what was done for me

Chorus:

Ill know what you are The light in the dark And Ill see what you are

Forgive me

And III take what you are Over again III need nothing more

Take me

Many voices speak
Many times I am weak
Many things escape
Its part of me
Many chances that I take
To kill you again
It shouldve been me
And Everyone

Repeat Chorus

Take me See who you are Know who you are See who you are Take me

Repeat Chorus

Take me

Forgive me
