

Falco, No Time For Revolution

Confusion
Desillusion
No Time
No time for revolution
No time for revolution
Elutions for dath romance
Could break up the bugs
You go on makin' sense

Back in the sixties
They standed there
"Fight, fight for the dreams,
Fight for the right"
In the seventies, follow,
Follow to go over to the place
So went to San Francisco,
Somewhere far out the space
In the eighties I don't know,
Some did it for the money,
Some did it for the show

There's no time
No time to remember these days
No time to hold back in that size
We don't have no time,
No time, no time ...
No time for revolution
No time for revolution
No time for revolution
No time for revolution

In the nineties
There's a soul
Called those generation
For who is in charge
For this situation
And this station
About politicians,
No embitions -
Tell me what's the vision
To be a winner,
Is never ever mather of how,
Political correctness
Is the word of now
The spirit of the money
Is the sound of the time
There's something coming up
To change your mind
There's no time ...
