

# Fall Out Boy, Dear Future Self (Hands Up) ft. Wyclef

hands up ready for the boom  
never mind the rocket launcher talking about a tune  
you can hear us coming whit the zoom  
listen to the boom boom  
we are breaking through

we prepared for the turbulence  
but there's no preparing for this  
got paid on Tuesday  
But I am still broke  
when the weekend ends  
another trip around the Sun  
It was a good run  
just mixing all of my prescriptions with my problems

streets are full of seasons  
saw what they did to Jesus  
Dude will kill you for no reason  
and charge you for treason  
I know this one for a fact  
my phone they got it on tap  
cause every time  
I am talking I can hear him in the back

hands up ready for the boom  
never mind the rocket launcher talking about a tune  
you can hear us coming whit the zoom  
listen to the boom boom  
we are breaking through

she winding like she losing her mind

knock /4x  
Wo is it?  
She said this is a surprise visit  
it's my fantasy I am gonna love it  
hands up and don't you refuse it

I wanna tattoo you on me  
just look what you created  
dear future self  
I hope it's going well  
I am drunk on cheap whisky in an airport hotel

hands up ready for the boom  
never mind the rocket launcher talking about a tune  
you can hear us coming whit the zoom  
listen to the boom boom  
we are breaking through

she winding like she losing her mind

knock /4x  
Wo is it?

hands up ready for the boom  
never mind the rocket launcher talking about a tune  
you can hear us coming whit the zoom  
listen to the boom boom  
we are breaking through
