

# Fall Out Boy, Heartbreak Feels So Good

No matter what they tell you  
The future's up for grabs, no  
No matter what they sell you  
Is there a word for "Bad Miracle?"

Nobody said the road was endless  
Nobody said the climb was friendless  
But could we please pretend this  
Won't end?

It was an uphill battle but they didn't know  
No they didn't know  
We were gonna use the roads as a ramp to take off

We could cry a little  
Cry a lot  
But don't stop dancing  
Don't dare stop  
We'll cry later or cry now  
You know it's heartbreak  
We could dance our tears away  
Emancipate ourselves  
We'll cry later or cry now but baby

Heartbreak feels so good

We said we'd never grow up  
It's open season on blue moods  
Light from a screen of messages  
Unsent

It was an uphill battle but they didn't know  
No they didn't know  
We were gonna use the roads as a ramp to take off

We could cry a little  
Cry a lot  
But don't stop dancing  
Don't dare stop  
We'll cry later or cry now  
You know it's heartbreak  
We could dance our tears away  
Emancipate ourselves  
We'll cry later or cry now but baby
