

# Fall Out Boy, Young And Menace

We've gone way too fast for way too long  
And we're never supposed to make it half this far  
And I lived so much life  
Lived do much live  
I think the God is gonna have to kill me twice  
kill me twice like my name was Nikki Sixx  
I woke up in my shoes again but somewhere you exist singing  
I did it again  
I Forgot what u was losing my mind about  
I only wrote this down to make you press rewind  
And send a message that I was young and menace

Woke up on the wrong side of reality  
And there's a a madness that's just coursing right through me  
Abs as far as the time  
Far as the time  
Not sure I'm there yet but I;m searching iut the ride  
I did it again  
I Forgot what u was losing my mind about  
I only wrote this down to make you press rewind  
And send a message that I was young and menace

If I am off the deep end  
I;m just here become the best yet  
I;m here for the psych assessment  
I;m just here for the the,,,  
We've gone way too fast for way too long  
And we're never supposed to make it half this far
