Fallen Angels, If You Love Somebody

If you love somebody
Don't let him down
Make him a king
But don't give him the crown
Don't annoy him
Make him feel good
But if he asks you
Don't tell him the truth
If you love somebody
Give him a call
Always help him
Don't let him fall
If he likes your way
You know you can try
But if he'd walk away
There's no need to cry
Chorus:
Everytime you love somebody
You can't forget
That your life is one
And you'll never get
All tose things you always wanted to have
But I tell you never give up
If you love somebody
Tell who you are
Be his best friend
Make him feel like a star
Know his feeling, thinking
Moving and dreaming
Don't give up
You don't know what you're missing
Repeat Chorus
