

# Falling In Reverse, Popular Monster

i wake up every morning  
whit my head up in a daze  
I am not sure if I should say this  
fuck I'll say it anyway  
everybody trues to tell me  
tha I am going through a phase  
I don't know if it's a phase  
I just wanna feel ok.

I battle wit depression  
but th question still remains  
is this post traumatic stressin'  
or am I suppressing rage  
and my doctor tries to tell me  
that I m agoibg through a phase yeah it's not a  
fucking phase  
I just wanna feel ok

ok, yeah  
I battle whit this bullshit everyday  
and it's probably cause my demons simultaneously rage  
and it's obliterates me  
disintegrates me  
annihilates me
