Fame Factory, Call You (Karl Martindahl)

Call You (Karl Martindahl)

It feels like a thunder every day
when you're around but I don't know what to say
Oh baby, tell me what I got to do

I can see the lightning in your eyes
I wanna hold you tight through the sunrise
Oh baby, tell me what I got to do

and I'll be there to please you
If you only call my name
I have got this feeling
that someday you'll feel the same

I'm gonna call you when you're lonely
I'm gonna call you every day
say the words that you want to hear
It's a game for two that I want to play
I've got a whole lot of loving
I'm gonna give it all to you
Never stop. no I wont give up
'til our love comes true

and it feels like magic saying to you
that when you smile, I am smiling too
Og baby, tell me what I got to do

the words I say I mean them all
I'm speaking from my heart
and if it was for me to chose
we'd never part
no, no, no, no, no, no

I'm gonna call you when you're lonely
I'm gonna call you every day
say the words that you want to hear
It's a game for two that I want to play
I've got a whole lot of loving
I'm gonna give it all to you
Never stop. no I wont give up
'til our love comes true

and when you're weary
when you're cold I'll hold you
then you will see
just what you mean to me
la-a-a

Solo

Call you when you're lonely
I'm gonna call you every day
say the words that you want to hear
It's a game for two that I want to play
I've got a whole lot of loving
I'm gonna give it all to you
Never stop. no I wont give up
'til our love comes
love comes true
