

Fame, Perfect Bliss

I think they call it love
There's nothing to be scared about
Believe me
Ain't nothin we can do
Just let it be a part of you
And feel it
I wanna let you know
I promise, I promise
To never let you go
You know, you know

CHORUS

We can make it good
We can make it right
We can make the shadows turn to light
Boy, when it feels like this
(When it feels like this)
It's some kind of perfect bliss
(Some kind of perfect bliss)
We dont need to hurt
We dont need the pain
We can be the sun behind the rain
Boy, when it feels like this
(When it feels like this)
It's some kind of perfect bliss

You're scared its gonna change
You say you need a guarantee
Just leave it
Look what you will find
Don't you know that love is blind
Just feel it
I wanna let you know
I promise, I promise
To never let you go
You know, you know

CHORUS

It's A to Z, it's chemistry
It's meant to be
It's everything
It's all we need Just let it be
yeahhhh yeah yeah yeah

I wanna let you know
I promise, I promise
To never let you go
You know

And you know

CHORUS

Some kind of love
Some kind of feelin
Some kind of miracle
Yeah, yeah
Some kind of perfect bliss
