

Family Force Plus, I Love You To Death

My heart jumps
It jumps outta my chest
Because I love you to death
There's no shame
In what I say
Because I love you
I love you to death

I chose to forget all the rest
Because you're the best
I love you to death
I took a bullet through my
Bullet proof vest and hurt
You know it
I love you to death

Well we're together forever
And that's a promise
Can't live a second without you
Got to be honest
I'm not afraid of the
Jesus that I take
This ain't a test
You know I love you to death

I put my money where my mouth is
Shut, give it up
Even the showbiz
Just to prove I don't
Need to be your enemy
I love you to death

I'll always love you the same
It's true that will never change
Because I know all about you
You know I never live a second
Without you

Well we're together forever
And that's a promise
Can't live a second without you
Got to be honest
I'm not afraid of the
Choices I have made
This ain't no test
You know I love you to death
