

Fancy, It's Only Loneliness

Everytime I see you walking by
I could simply hide
My face and cry
Every time I look into your eyes
I remember all the nights
Were shared with you
But flames of fire
Turned to ice

It's only loneliness
That makes me feel
So bitter blue
It's only loneliness
That always makes me long for you
My mind is ready for

A brand new start
There's no running from
Your heart

Everytime I talk
To you again
I wanna reach out
For your hand
Everytime I touch you
I feel sad
I wanna hold you
In my loving arms
And recapture
All the love we had
