

Fancy, Lost In Love

Standing in the rain
How I used to waste time
It felt so cold
Deep down inside
All the tears and pain
Seem to last forever
Now they disappear
When you're inside

Lost in love
Now I found a precious heart
To keep my faith alive
Lost in love
You're around to change the wrong to right
Lost in love

Never gonna let you go
We'll take it soft and slow
Lost in love
Lost in love

Suddenly my life
Has a new direction
Suddenly there's laughter
In my eyes
Could it be a dream
Really lost forever
Holding on to you
It feels so right
