

Fancy, Stand Up For Love

Sometimes I've dreamed of you
Feeling your touch upon my face
No-one loved you like I do
Our love can never change
Worn hearts can rearrange
With time
Will I win or will I lose

Give love another try
We'll never say goodbye
Celebrate standing up for love

Stand up for your love
I've been waiting so long
Love is going strong
Stand up for your love
We'll be sailing away
On an ocean bluer than blue
Love will grow and I know

Never worry let your love show
It can't be wrong
We're going strong
Stand up for love

I know our love is real
My heart your eyes can steal away
Wanna touch your velvet skin
Two hearts in harmony
Loving so wild and free with you
Need you more then words can say

Give love another try
We'll never say goodbye
Celebrate standing up for love

Stand up for love
