

Fatso Jetson, Bored Stiff

Here's the backlash:

I'm bored stiff

And it don't feel right without this line

You can take it out and maybe next time

This will turn the gear that moves the lever to...

Make me write it down

If you say this song

Be careful how you phrase it

It can sound all wrong

Just be honest now

Tell the story pure

Don't get caught up in the way you wish the words would sound.

So it comes to this:

I'm bored stiff

And I can't talk to you without repeating myself

I keep stumbling through my own words

Like I'm strung out, like I'm going numb!

Make me write it down

If you say this song

Be careful how you phrase it

It can sound all wrong

Just be honest now

Tell the story pure

Don't get caught up in the way you wish the words would sound.

So it comes to this:

I'm the time bomb

I'm the anti-man with all the problems

I can't write it down

I can scream it out

when I'm strung out, when I'm going numb!

Make me write it down

If you say this song

Be careful how you phrase it

It can sound all wrong

Just be honest now

Tell the story pure

Don't get caught up in the way you wish the words would sound.

I'm the anti-man

I'm the anti-man

I'm the anti-man
