## Fear Factory, Bonescraper

There is no future for us to suture Your life ill fated, beat down and hated Shot in the head, walking undead Numb to the world, around your head RIP my skin from my bones, I won't bleed RIP my heart from my chest, I won't scream

Hide in the shadows, deep black, and hollow Empty void of light cuts slean, like a knife Damaged and torn, punctured by thorns I've felt nothing since I was born RIP my skin from my bones, I won't bleed RIP my heart from my chest, I won't scream

My Flesh - You Flesh You Eyes - My Sight My Pain - Your Shame We are the same... RIP my skin from my bones, I won't bleed RIP my heart from my chest , I won't scream RIP my skin...
