

# Fear Factory, Hi -Tech Hate

These weapons of mass destruction  
Around our world, threat to us all!  
Operated by fears, cold over years  
Systematic death, terminal breath!  
Leaders of our time just stand behind  
An arsenal to end us all!  
Fighting a war, we can't ignore  
Destined to fall, cowards to all!...  
We are losing, weapons controlling  
This is the hour of your reckoning  
These weapons of mass destruction  
Around our world, threat to us all!  
Fighting a war we can't ignore  
Destined to fall, cowards to all!...  
We are losing, weapons controlling  
This is the hour of your reckoning  
No more arsenal threatens all  
Heading for a downfall  
Mass destruction, mass destruction  
Mass destruction for all
