

Fear Factory, Hi -Tech Hate

These weapons of mass destruction
Around our world, threat to us all!
Operated by fears, cold over years
Systematic death, terminal breath!
Leaders of our time just stand behind
An arsenal to end us all!
Fighting a war, we can't ignore
Destined to fall, cowards to all!...
We are losing, weapons controlling
This is the hour of your reckoning
These weapons of mass destruction
Around our world, threat to us all!
Fighting a war we can't ignore
Destined to fall, cowards to all!...
We are losing, weapons controlling
This is the hour of your reckoning
No more arsenal threatens all
Heading for a downfall
Mass destruction, mass destruction
Mass destruction for all
