

# Fear Factory, Millennium (Killing Joke Cover)

I was born to see two thousand years  
Off mens effet, upen the planet  
Extinction seems to be a plausible risk  
Whatever happens well m part of of all this  
My life ive been waiting for this moment  
All life ive been waiting for this moment, to come  
Taste the salt of my tears  
Take the wealth of my years  
Singing in the millenium with you  
(Resolution for show)  
Old ways seem to know  
Singing in the millenium with you  
Fire burns all our uncertainties  
Water wash away impurities  
Condradictions and predications abound  
Yes! i Belief we can turn it around  
My life Ive been waiting for this moment  
My life ive been waiting for this moment  
All life ive been waiting for this moment, to come  
All life ive been waiting for this moment, to come  
All life ive been waiting for this moment, to come
