

# Feeder, Borders

WooOOoo, WooOOoo /2x

She's always trying' to work it out  
Sitting' in a parked car  
Music on the stereo is blaring out  
Shutting out the world  
People always say 'what you gonna do now'?  
Are you gonna go far  
Gonna follow your heart, Til it stops  
She could never say why  
'Cos she's leaving tonight  
She would never say why  
'Cos she's leavin'

Jessie always wanted, to get away  
Tried to cross a Border, Head out to the lakes  
Life beside the water, Blinded by the sun  
Jessie are you gonna leave now?  
Are you gonna leave town?

WooOOoo, WooOOoo

It's funny how she hesitates  
She wonders why she still cares  
Tomorrow seems so far away  
This moment could be her's  
People always say 'what you gonna do now'?  
Are you gonna go far  
Gonna follow your heart, Til it stops  
She could never say why  
'Cos she's leaving tonight  
She would never say why  
'Cos she's leavin'

Jessie always wanted, to get away  
Tried to cross a Border, Head out to the lakes  
Life beside the water, Blinded by the sun  
Jessie are you gonna leave now?  
Are you gonna leave town?

Looking for the answer  
She won't be the last one out  
Trying to get a head start  
Find her way through the crowds  
Right now...

WooOOoo, WooOOoo

Jessie always wanted, to get away  
Tried to cross a Border, Head out to the lakes  
Life beside the water, Blinded by the sun  
Jessie don't leave it too long, too long now

Jessie always wanted, to get away  
Tried to cross a Border, Head out to the lakes  
Life beside the water, Blinded by the sun  
Jessie are you gonna leave town
