

Feeder, Don't Bring Me Down

Pay the rent, make the dent
Break the routine, smell the stench
Take the pill, just for thrills
Sitting on your silk screen beds
Taste the dirt of a world
Full of violence and regrets
Take a bite out of life

Don't bring me down (Down, down, down, down...)
Don't bring me down
Don't bring me down
Don't bring me down

Turn your back, get in sack
Twisted faces, heart attacks
Suicide, selfish pride
Fornication, broken lives
Ecstasy, casualty
Peace of mind, wipe it clean
Take a bite out of life

Don't bring me down (Down, down, down, down...)
Don't bring me down
Don't bring me down
Don't bring me down

Down, down
Down, down
Down, down
Down, down...

mmm, mmm
