

Feeder, Forgiven

Calling out in pain
Sweat upon my headache
Making me feel bad
Picture it again
I must be dreaming
Maybe I'll walk high

High, takes me in
High, I hear you say

Forgiven, I wish I was
Forgiven, the waters part
Reaching out to say

Thinking of the days
Walking by the trees sway
Staring at the sun
Little child is me
Pain is taking over
Smiles that turn to stone

High, takes me in
High, I hear you say

Forgiven, I wish I was
Forgiven, the waters part
Reaching out to say

You heal the scars I hide
You drink the tears I cried
I'm reaching out to touch the angel of my life
Forgiven, forgiven, forgiven (I wish I was)

I wish I realised when you were still alive
Make peace inside my head
The ghost of you arrived
Forgiven, forgiven
I wish I was, I wish I was
Forgiven, forgiven
I wish I was, I wish I was
Forgiven

Wish I was
