

# Feeder, Heads

Looking at all of your friends  
Wishing you could be like them  
Running on glass floors again  
Just so you can be knocked down  
Swimming in oceans of pain  
Trying as it pulls you in  
Wrapping your heart up in chains  
Cause someone always lets you down

Get inside my head  
Get inside my head  
Get inside my head  
And light it up again

I wonder do you feel the same  
Waiting for the days to end  
Lying with thoughts that invade  
They smother you and everyone  
Flying on feelings again  
Biting on a poison tounge  
Climbing up mountains of pain  
Just so you can be knocked down

Get inside my head  
Get inside my head  
Get inside my head  
And light it up again

Get inside my head  
Get inside my head  
Get inside my head
