

# Feeder, Piece By Piece

Sitting on a corner street  
Children playing at my feet  
See the smiles on ice cream faces  
Feel myself begin to sink  
As the wind blows through my skin  
Leaves me open to temptation

Cause nothing ever lasts forever  
We're like flowers in this vase together

You and me it's pulling me down  
Tearing me down piece by piece  
And you can't see that it's like a disease  
Killing me now it's so hard to breathe

Sucking back a cigarette  
Thinking about new regrets  
Trying to be someone you'd like to be  
Passing faces on the road  
Where the hell can we still go  
Leaves us open to temptation

Cause nothing ever lasts forever  
We're like flowers in this vase together

You and me it's pulling me down  
Tearing me down piece by piece  
And you can't see that it's like a disease  
Killing me now it's so hard to breathe  
It's so hard to breathe

But it's worth fighting for, it's still worth fighting for  
It's worth fighting for

Cause nothing ever lasts forever  
We're like flowers in this vase together, Here

You and me it's pulling me down  
Tearing me down piece by piece  
And you can't see that it's like a disease  
It's killing me now it's so hard to breathe

You and me it's pulling me down  
Tearing me down piece by piece  
And you can't see that it's like a disease  
It's killing me now it's so hard to breathe
