

Feeder, Purify

Given everything that innocence has pulled us both apart
find ammunition, a part of you to fill this empty heart
never knowing what to say, what to do, where to go
as the moment slips away, take a breath and swallow

call me hear me,
I'm cut & torn, torn
Just show me the way through
call me hear me
I step in stone
stone...
I'm trying to reach you
I'm trying to reach you
I'm trying to reach you

come together feel the pressure hold on tight you never know
push the button, ease the tension, purify but take it slow
never knowing what to say, what to do, where to go
as the moment slips away take a breath and swallow

call me hear me,
I'm cut & torn, torn
Just show me the way through
call me hear me
I step in stone
stone...
I'm trying to reach you

call me hear me,
I'm cut & torn, torn
Just show me the way through
call me hear me
I step in stone
stone...
I'm trying to reach you
I'm trying to reach you
I'm trying to reach you
I'm trying to reach you
I'm trying to reach you
