

Feeder, Reminders (B-Side)

You got it all worked this living
You made it all whacked out this given thing
Tore a soul and left it kicking
Drilled a hole right through my perfect world

Staring at pictures now
Tearing the pictures down, yeah
It's pulling me deeper down
Every day reminds me

Love has left me high and twisted
Cut a wire and watch me fall back in
Telepathic operatics
Suck the humans clean out of my brain

I'm staring at pictures now
Tearing the pictures down, yeah
It's pulling me deeper down
Every day reminds me of you

Staring at pictures now
Tearing the pictures down, yeah
It's pulling me deeper down
Every day reminds me of you
Every day reminds me

You made it all whacked out this living
Tore a soul and left it kicking

Staring at pictures now
Tearing the pictures down, yeah
It's pulling me deeper down
Every day reminds me of you

Staring at pictures now
Tearing the pictures down, yeah
It's pulling me deeper down
Every day reminds me
Every day reminds me
