

Feeder, Tangerine

Tangerine turning green
Cellophane
Window pain
Socialise
Paralysed
Pastic faces suck me dry

Tangerine tangerine
Tangerine tangerine

I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon
I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon

Twenty eight
Suffocate
Take a ride
See me fly
Detonate feel it break
See myself disintergrate

Tangerine tangerine
Tangerine tangerine

I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon
I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon

See me as I climb
The rain burns in my eyes
So catch me as I fall
Away

Tangerine tangerine
Tangerine tangerine

I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon
I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon
I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon
I know it's sad life's just a piece of fruit
Touch down new ground stop living on the moon
I know it's sad
