

# Feeder, We Are The People

What do you say?  
What do you think about miracles?  
Miracles are somethings you dream about  
We are looking for a new way out  
Slipping away, losing all sense of reality  
Sacrifice, love and democracy  
We burn it all down  
Cos all our lives  
We're waiting for something new  
Waiting for someone like you

We are the people  
Who let this whole thing go  
Just like the people you know  
We are the reason  
We're blinded by the goal  
We are the people, you know

Burning away  
Light in the sky so you can bring us home  
Further, further down an open road  
We've torn it all down  
Why do we pray, why do we talk about angels?  
Flying with their golden wings  
We've burned it all down

Cos all our lives  
We're waiting for something new  
Waiting for someone like you

We are the people  
Who let this whole thing go  
Just like the people you know  
We are the reason  
We're blinded by the goal  
We are the people you know

Step it up again  
We can be silenced  
We can be brave  
We can be broken  
All can be saved  
It's the rest of our lives
