

Feeling, Love It When You Call

I found a switch
you turned it on
I Hit the ditch
you carried on
I was so near
Now you're so far
Are you quite sure
Just who you are

O IIIII
O you could chose a friend but you don't seem to have the time
O IIIII
I wonder if you ever get to say what's on your mind
O take a little time, come on take a little time

I love it when you call
I love it when you call
I love it when you call
But you never call at all
So what's the complication it's only conversation
An I love it when you call
But you never call at all

Whoa!(He loves it when you call.
He loves it when you call.
Ahh)

Remember me, I used to be the best time buddy
That you couldn't wait to see
But getting old, it takes its toll
And hearts getting broken lead to people growing cold

O IIIIII

I'm flippin' with a coin that's got a tail on either side
O IIIIII
I'm gonna be the one who makes you stop and realize
You could have it all
Yea, We should have it all

I love it when you call
I love it when you call
I love it when you call
But you never call at all
So what's the complication it's only conversation
An I love it when you call
But you never call at all

Whoa!
(He loves it when you call
He loves it when you call.)

Yea I wonder where you been
Yea I wonder who you've seen
And I hope you find your train
When you do a living and hope it's all it seems

I love it when you call
I love it when you call
I love it when you call
But you never call at all
So what's the complication it's only conversation
I love it when you call

But you never call at all

Woo!
