## Fefe Dobson, Julia

Tell me this is not the end Julia You, my love, my oldest friend Julia I see you with flowers in your hair Julia Running around without a care Your days were numbered Yeah

And I want you to know
You're doing this to yourself
Time to show me the will to change
And I swear I will help you
I will
I will shine my light on you

Let the sunlight show your face Julia
No one knows you in this place Julia
I see there's a distance in your eyes Julia
Can I even reach you if I try
Or is this goodbye

And I want you to know You're doing this to yourself Time to show me the will to change And I swear I will help you I will I will shine my light on you

I will shine my light of hope And change and everything that Might have been If you'd only hear my warning If you'd only hear me calling I would shine my light on you

Tell me this is not the end Julia
You, my love, my oldest friend Julia
You put your faith in dreams that kill Julia
Lying with beauty, breath so still She couldn't be trusted Yeah

And I want you to know You're doing this to yourself Time to show me the will to change And I swear I will help you I will I will shine my light on you
